

ST. PAUL, MN

SEPT. 12 - 13, 2018

# TEAM IMPROVEMENT WORKSHOP

*Learn to design and deliver powerful team-building interventions*

## Who Should Attend

- Human resource, leadership development, and OD professionals who support teams
- External consultants who work with teams and team leaders
- Anyone who wants to help teams and team leaders achieve high levels of performance

## Key Takeaways

- Design and facilitate powerful team-building off-sites
- Diagnose the eight underlying elements of team effectiveness
- Interpret and give feedback on the Team Assessment Survey
- Lead 17 proven team-building activities
- Assess an organization's cultural readiness for teamwork
- Avoid the common pitfalls of team-building interventions

Faced with rapid change and complex problems, organizations are increasingly turning to teams to provide breakthrough solutions and innovative ideas. And while there's a bigger need for effective teamwork, today's teams also face bigger obstacles than teams of the past. They're more diverse, digital, and dynamic (with members coming and going). Perhaps these challenges are behind the alarming statistic that only 1 in 5 teams are considered high performing. Teams need help!

The Team Improvement Workshop will boost your team-building capabilities. It will teach you how to launch new teams and equip you with the skills needed to design and deliver powerful interventions to help struggling teams get back on track. The workshop is designed to be highly interactive. Participants will have opportunities to practice team-building activities and share best practices.

**ST. PAUL, MN**

**Sept. 12, 2018 8:30 - 5:00**

**Sept. 13, 2018 8:30 - 2:00**

# Program Faculty

Your program faculty are experienced consultants who work with teams at some of the world's largest and most successful companies.

## **Gordy Curphy, PhD**

Is a leading authority on leadership and teams, and spends most of his time helping C-suite and business unit leaders develop and execute business strategies; drive organizational alignment; manage talent; and build high performing teams. Gordy has spent the past 35 years providing consulting advice on leadership and has written more than 20 books on leadership and teams. As a consultant, he has conducted more than 1,500 executive assessments, consulted with thousands of teams, and designed and delivered hundreds of executive coaching and leadership development programs to global clients.
