

Building High Performing Teams Certification Workshop

Research by Deloitte shows that good teamwork is becoming increasingly important to organizational success, yet only a minority of people work on effective teams. It turns out most team leaders do not know how to properly launch new teams or improve the performance of those teams they lead.

Why Attend Ours?

Based on a team performance framework developed by world-renowned leadership experts [Gordon Curphy](#) and [Robert Hogan](#), the Rocket Model Certification Workshop gives consultants a framework and the tools needed to build high-functioning and high-performing teams. The Certification Workshop provides consultants with practical advice on how to:

- Launch new teams
- Assess team dynamics
- Provide team feedback
- Deploy team development exercises
- Deliver impactful team off-sites
- On-board new team members
- Improve team performance

Who Should Attend?

Consultants who want to help teams and leaders achieve and sustain high levels of performance should attend this two-day workshop.

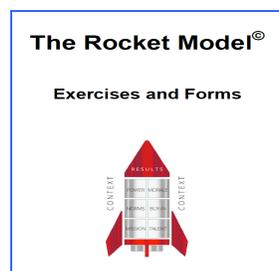

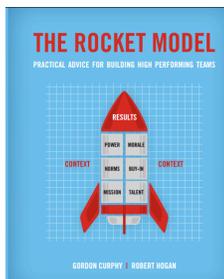

What Does the Workshop Cover?

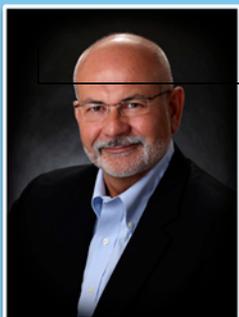

Unlike other certification workshops that focus on instrumentation rather than implementation, the primary purpose of the Rocket Model Certification Workshop is to provide consultants with a set of practical tools to help teams gain alignment on the context in which they operate, set team goals, clarify team member roles, establish better meeting and accountability norms, resolve team conflict, etc. Consultants will review or practice using 17 different team improvement exercises over the course of the certification workshop.

Certification Workshop Materials:

- Team Assessment Survey II Feedback Reports
- Certification Workshop Manual and PowerPoint slides
- Electronic copies of 17 proven team development activities and tools
- *The Rocket Model: Practical Advice for Building High Performing Teams*
- *Applying the Rocket Model to Virtual Teams* white paper

Gordy Curphy is a leading authority on leadership and teams and spends most of his time helping C-suite and business unit leaders develop and execute business strategies; drive organizational alignment; manage talent; and build high performing teams.

Gordy has spent the past 35 years providing consulting advice on leadership and has written 19 books on leadership and teams. As a consultant, he has done over 2,500 executive assessments, worked with over 300 teams, and designed and delivered hundreds of executive coaching and leadership development programs to global clients.

Gordy earned his BS in Organizational Behavior from the United States Air Force Academy, his MA from St. Mary's University in San Antonio, Texas, and his Ph.D. in Industrial and Organizational Psychology from the University of Minnesota.

Karen Behar is President of To The Core Consulting, an organizational effectiveness firm. Karen has been working with clients such as Enerplus, Total E&P Canada, Suncor Energy, Husky Energy, Priddis Greens Golf & Country Club, Alberta Securities Commission, Canadian Standards Association (CSA), OCAD University, and Tandem Studio Fitness Division, in the areas of learning solutions, team and leadership development, conflict resolution, and facilitation of major change initiatives. She has coached at all levels.

Prior to starting her own business, Karen managed the Organizational Effectiveness portfolio at Husky Energy for 12 years. In this position she worked with the Executive Team and 300 of Husky's top leaders designing and instructing the bulk of the leadership course work. She has presented to international audiences on this subject and won awards for her work.

Karen has studied internationally on scholarship, and earned her B.S.W. and M.S.W. at the University of Manitoba.

Here's what global business leaders are saying:

In today's world of distributed teams it has become particularly difficult to build high performing teams. The Rocket Model is the most amazing tool a leader can use to address this problem.

Walter Angerer, CEO, Parsec Labs

I participated twice in "Building High Performing Teams" training sessions with Gordy. They were the best team-building exercises that I ever had and I would recommend them highly to every team.

Kemal Balioglu, VP of Products, Quorum

Leveraging the Rocket Model as a guide, Gordy engaged with me and my team to identify opportunities to elevate our team's performance and put action plans in place to drive results.

Mick Slattery, President, Avanaide
